PROFESSIONAL SUMMARY

As a Python Developer with 5 years of experience, I have successfully designed and implemented complex software solutions for various industries. My biggest achievement includes developing a web application that increased efficiency by 30% for a leading e-commerce company. My expertise lies in leveraging Python libraries and frameworks such as Django and Flask to create scalable and robust applications. With a strong understanding of object-oriented programming, I have consistently delivered projects within tight deadlines while maintaining high-quality standards. My excellent problem-solving skills, attention to detail, and ability to work in a collaborative team environment make me a valuable asset to any organization.

EXPERIENCE

Python Developer

Fresher, India, Chennai

February 2019 - February 2021

As a Python Developer at Fresher, India from 2019-02 to 2021-02, I have gained valuable experience in developing robust and efficient software solutions using Python programming language. I have also collaborated with cross-functional teams to deliver high-quality projects within strict timeframes.

- Developed and maintained Python-based web applications
- Implemented data analytics and visualization tools using Python libraries
- Worked on database management and optimization using SQL
- Collaborated with team members to troubleshoot and resolve technical issues
